PROFESSIONAL SUMMARY

Open to international relocation. Senior Front-End Developer specializing in React.js and Next.js. Proven ability to design and enhance user interfaces for high-traffic SaaS, E-commerce, and Fintech platforms serving 40,000+ users. Built reusable components that cut development time by 70% and skilled in optimizing web applications for performance and scalability, ensuring a seamless, responsive user experience across all devices.

WORK HISTORY

Aqaye Pardakht - Front-End Developer

Rasht, Iran • 02/2022 - 09/2025

- Led the architecture and development of a configurable form-builder in React.js powered by JSON schemas, reducing internal form creation time by 70%.
- Engineered a reusable chat package with scalable system design, cutting development hours for 5+ client products and speeding delivery cycles.
- Boosted admin panel performance with backend developers, raising Lighthouse scores from 45% to 95% through code splitting, caching, and lazy loading.
- Automated the entire release cycle by architecting CI/CD pipelines in GitLab, cutting deployment time and delivering features 50% faster to customers.
- Mentored 4 junior developers in Agile sprints, leading code reviews and sprint planning to boost team velocity and maintain production-grade code quality.

Rivas System - Front-End Developer

Rasht, Iran • 03/2020 - 02/2022

- Contributed to a reusable React.js shop-builder system for 20+ projects, which enhanced performance and shortened the client time-to-market.
- Produced responsive, user-centered interfaces for 15+ projects, improving mobile usability and strengthening brand consistency across all client platforms.
- Developed and delivered 60+ interactive HTML/CSS templates for diverse client projects, enabling rapid prototyping and accelerating project delivery cycles.

Axell Accelerator - Web Developer

Rasht, Iran • 11/2018 - 01/2020

- Crafted and launched a WordPress marketing site for an Android game, which increased user engagement and drove a 30% rise in downloads.
- Crafted 5+ responsive HTML/CSS design templates and presented clear design rationales, which improved stakeholder alignment and reduced development rework.
